

ARPA Yavapai County Broadband Project Question and Answers as of 6.19.23

Q #25 6.17.23 **How is the broadband project in Congress proceeding?** Very well. Cox Communications and their sub-contractors are progressing on schedule and within the budget. The Yavapai County Broadband Project Management team meets with Cox Leadership every other week to discuss the project. We review Daily Reports, the Gantt Chart, and the Construction Schedule, updated Project Maps, Finance and Legal issues, along with any item that might need our attention.

Q #26 6.19.23 **When will the RFP be released for the \$12.8 million that was not spent on the former Altice Contract?** We do not know for sure, but we are hopeful very soon. The document has been written and is now being reviewed by our legal staff and by our consultants. As soon as that can be completed, the RFP will be released. The entire document will be placed on this website and will be distributed to an extensive list of potential vendors, and there will be a News Release to the media.
