

Q 50, 7.17.23

The question pertains to the service areas to be addressed in the above referenced RFP. In that RFP, there are references to Congress and Black Canyon City (sections 1.6, 1.8, 1.25, and 2.1) which we thought were awarded to Cox Communications. I am confirming that those two areas should not be included in any proposal submitted to Yavapai County for RFP No.: YCBI-002. That is confirmed. Congress and Black Canyon City should NOT be included in a response to YCBI-002. Thank you for the question. Congress is in the later stages of construction now and Black Canyon City is completing the engineering phase and should be breaking ground on active construction in early August.
