

#62 12.6.23 Q- The Sparklight Contract for installation of fiber to the premises at the Verde Villages, near Cottonwood, was on the Board of Supervisors agenda for December 6, 2023 and was “tabled until December 20th”. What’s up? Yes, the Project Manager asked Chairman Gregory to table the item to the December 20th meeting in Cottonwood. This is due to the fact that Sparklight legal counsel raised an issue involving when the bond requirement ended under Item # 7. Legal counsel from Sparklight and Yavapai County have been discussing the matter. We expect the issue to be fully resolved and once we have a new signed document from Sparklight, which should be today or tomorrow, it will be added to the next agenda. We do NOT expect any additional changes to this contract.
