

June 2024

Top leadership from Cox Enterprises and Cox Communications recently visited Black Canyon City to observe ongoing construction of the fiber network Cox is building in partnership with Yavapai County under the County's Broadband Initiative. Cox Enterprises Chairman and CEO, Alex Taylor, Cox Communications President, Mark Greatrex, and other Cox Enterprises executive leadership joined the local Cox management and construction teams to observe the progress and ongoing construction of the Cox fiber network in Black Canyon City. These Cox leaders met with Yavapai County Library Director/County Librarian, Corey Christians while in Black Canyon City."

One photo shows the leadership team with our construction team and our contractor, CAN EZ, at a site where we were boring. The other photo is the 5 minute rendezvous we were able to manage with Corey.
